B.S. Information Sciences, University of Tennessee Knoxville — GPA 3.74 May 2025

EXPERIENCE

UX Design Consultant – Autotroph Games May 2026 – Present

Freelance

- Audited and designed UX for *Haunted Heist*, an indie game with 50,000+ Steam wishlists pre-launch, coming out October 2026.
- Worked cross-functionally with the studio's developers to redesign the settings menu's information architecture, fixing an unclear hierarchy, inconsistent type, and spacing so players could find what they needed quickly (Shipped).
- Redesigned the pre-match lobby to eliminate input errors, introducing intuitive drag-and-drop role selection and streamlined interaction states (Shipped).
- Supported design of the leaderboard and rewards systems, to give players an attainable, fun competitive goal.

Product Designer – Optimizely Feb 2026 – Aug 2026

Industry Capstone

- Designed the campaign picker, which ranks marketing campaigns by what the customer's existing data can support, so teams start where they'll see results.
- Led synthesis of user research interviews with Optimizely subject matter experts and external marketers, turning findings into actionable insights on why marketers were stalled at launch.
- Ran usability testing and defined which metrics the results page shows and how they're laid out, so marketers can see which campaigns are working at a glance.

UX Designer – Element 47 Jun 2024 – Aug 2024

Internship

- Designed two client websites from wireframes through final layouts: Bottle Cap, a Nashville pub, and Martha O'Bryan, a nonprofit (Shipped).
- Audited 4 live client sites and fixed broken menu links, inconsistent page layouts, improving navigation and discovery.

LEADERSHIP & ACTIVITIES

VALORANT Esports Team – University of Tennessee Jun 2021 – May 2025

- Built and led a summer bootcamp for 20+ players, running sessions on strategy, mechanics, and team coordination.
- Placed 1st in the Southern Esports Conference LUNA tournament.
