EXPERIENCE

UX Consultant (Contract), Autotroph Games

May 2026 – Present

- Serving as UX consultant for **Haunted Heist**, an indie horror title with **50,000+ wishlists on Steam**, through its October release.
- Owned end-to-end design for the settings menu and partnered with the internal studio designer on lobby interfaces, loading screens, and leaderboard systems.
- Shipped the finalized settings menu alongside implementing new lobby interaction models, while driving ongoing development on leaderboard features.

Product Designer (Capstone), Optimizely

Feb 2026 – Aug 2026

- Led the design of the campaign picker, a feature that sorts campaigns by how ready they are to launch with the present data.
- Conducted 4 of 11 interviews with Optimizely subject matter experts and external marketers
- Handed off a high-fidelity prototype, tested with marketers and multiple Optimizely teams, and a PRD documenting the research behind each screen to Optimizely's engineering team.

User Experience Design Intern, Element 47

Jun 2024 – Aug 2024

- Designed wireframes for two client websites – Bottle Cap, a Nashville pub, and Martha O'Bryan, a nonprofit organization – to improve user experience and site functionality.
- Collaborated directly with the marketing team on client work, leading website updates that resolved inconsistencies across existing sites.
- Led the development of targeted user personas to address UX pain points, backed by competitive research to guide feature decisions.

LEADERSHIP + ACTIVITIES

Korean Language Ambassador, University of Tennessee

Aug 2024 – May 2025

- Founded and managed social media accounts for the Korean Language program, increasing visibility and engagement.

VALORANT Esports Team, University of Tennessee

Jun 2021 – May 2025

- Placed **1st** in the Southern Esports Conference LUNA tournament.
- Represented UTK in the Version1 tournament, competing on a national stage that provided a competitive platform for women in esports.
- Initiated a summer bootcamp for **20+ players**, designing and leading instructional sessions on strategy, game mechanics, and team coordination.

EDUCATION

Master of Human-Computer Interaction + Design (GPA – 3.88), University of Washington

Aug 2026

B.S. Information Sciences (GPA – 3.74), University of Tennessee Knoxville

May 2025
